

DATA CLEANING CHANGE LOG

Project: Data Cleaning & Preparation

Dataset: E-commerce Sales Dataset

Date: 16 June 2026

Change ID	Description	Impact	Status
CR001	Checked dataset for missing values across all columns.	Identified <code>CouponCode</code> as the only column with missing entries.	Resolved
CR002	Replaced missing values in <code>CouponCode</code> with "No Coupon".	Preserved 309 records while maintaining business meaning.	Resolved
CR003	Checked for duplicate records using <code>duplicated()</code> .	Confirmed zero duplicate rows.	Resolved
CR004	Converted <code>OrderDate</code> from <code>object</code> to <code>datetime64[ns]</code> .	Enabled accurate date operations and analysis.	Resolved
CR005	Optimized integer columns from <code>int64</code> to <code>int32</code> .	Reduced memory usage without data loss.	Resolved
CR006	Verified unique identifiers (<code>OrderID</code> if applicable).	Ensured data integrity.	Resolved
CR007	Validated data formats across numeric and categorical columns.	Improved consistency of the dataset.	Resolved
